The TREE is a monthly newsletter Published by TIST Uganda, a project area of **The International Small Group and Tree Planting Program**.

MISSION STATEMENT:

TIST Uganda is a community initiative dedicated to empowering small groups of subsistence farmers to combat the devastating effects of deforestation, poverty and drought.

OBJECTIVE STATEMENT:

Combining sustainable development with carbon sequestration, TIST supports the reforestation efforts of over 25,000 subsistence farmers. Sales of carbon credits generate participant income while TIST today also addresses Agriculture, HIV/AIDS, Nutrition and Fuel Wood challenges.

ADDRESS:

TIST Uganda.

Bushenyi Town, Liberation Road - Kitokye Lane

P.O. Box 232, Bushenyi,

Uganda, East Africa. Tel: 0772 058 868 / 0773 716960 / 0772360429 / 0783910878

Website: www.tist.org, info@i4ei.org

IN THIS ISSUE:

- HOW TO CONTROL FIELD CROP PEST
- ROTATIONAL LEADERSHIP
- WHAT A WONDERFULL TIST PROGRAM TO US
- BENEFITS OF INDIGENOUS TREES
- BEAUTY THROUGH TREE PLANTING

ENGLISH

HOW TO CONTROL FIELD CROP PEST

Organic pesticide

Pests targeted are the insect pests of field crops

Ingredients

- 1kg of moringa / Neem leaves (moringa oreifera)
- 1 mug of black jack fresh fruits (Biden pilasa)
- 1 mug of red pepper
- 100g of washing soap
- 10 liters of water

Directions:

- Mix moringa / Neem leaves, Black fruits and ripe red pepper
- Pound mixture in a mortar and then immerse in 10 liters of water for 24 hours

Storage: Store in Dark dry place not more than 10 days at a room temperature (20 – 25^oc)

Application: Apply with a spray bottle uniformly on the leaves of affected crop.
The application should be during the morning

Frequency: Apply every day until population of pest is reduced below the threshold level
By Ngobi Philly: Quantifier and Trainer – Kayunga District

ROTATIONAL LEADERSHIP

- Rotational leadership is an important best practice in TIST Program.
- With Rotating Leadership, every member has opportunity to serve as a leader.
- Rotating Leadership helps members to achieve new ideas and types of leadership.
- Rotating Leadership gives equal opportunity for both men and women as gender balance.

- Every member has a gift or talent from God, so it is a chance to share through rotational leadership.
- Rotational leadership helps members to Volunteer as leaders, without being committed for many years.
- Rotating Leadership encourages new members who are shy to be motivated through "Kujengana," as well as getting to learn from each other what makes good leaders.
- Rotating leadership makes sure that there are new ideas and types of leadership.

Kyorimpa Millian: Katerera Cluster-Bushenyi District

WHAT A WONDERFUL TIST PROGRAM TO US

Great things always remain great, just like TIST programs. Really TIST, your program will never leave, they will be forever. Now look encouraging people to plant trees hence beautifying our environment, teaching people how to make improved local saving stoves from local material, teaching about HIV/AIDS eradication.

You are truly great TIST, long live TIST

***By Okello Joseph-Kyankende
Cluster-Kiryandongo District***

BENEFITS OF INDIGENOUS TREES

Indigenous trees provide cleaner air that supports our health

They can be planted around our farm

boundaries and homestead compound

They act as wind breaks around our homes

Indigenous trees provide beauty and shade

Indigenous trees can be there for many years and consume a lot of carbon

Indigenous trees provide home and food for birds and animals

Many indigenous trees provide median for our good health

By Akatukunda Nancy-Mpungu

Cluster- Kanungu District

BEAUTY THROUGH TREE PLANTING

Our mother Uganda who is the pearl of Africa, beautiful with trees, green environment, trees with crown cover that act as shade in our homes, city streets. God blessed our country Uganda and called it pearl of Africa.

TIST Uganda is also a beautiful program advocating for the restoration of environmental glory by planting trees.

A tree is your friend, he gives you the air you breathe, he gives fruits to eat, he keeps atmosphere cool, he gives you shelter, he gives you money, medicine.

What a beautiful tree, we love you because you accompany us even when we have breathed our last breath to meet our creator. My dear friend plant trees, keep trees and love trees. A tree is our best friend. Long live TIST for advocating Tree planting.

JINSI YA KUGHIBITI WADUDU, WA MAZAO YA SHAMBA.

Dawa ya Hai

Wadudu wanaolenga ni wadudu wa mazao ya shamba

Viungo

- 1kg ya majani ya moringa / Neem (moringa oreifera)
- mug 1 ya matunda nyeusi ya jack (Biden pilasa)
- mug 1 ya pilipili nyekundu
- 100g ya sabuni ya kuosha
- lita 10 za maji

Maagizo:

- Changanya majani ya moringa / Neem, matunda nyeusi na pilipili nyekundu iliyoiva
- Changanya mchanganyiko kwenye chokaa na kisha uamize katika lita 10 za maji kwa masaa 24

Hifadhi: Hifadhi mahali pa Giza kavu sio zaidi ya siku 10 kwa joto la chumba (20-25-25)

Omba: Omba na chupa ya kunyunyizia vivyo hivyo kwenye majani ya mazao yaliyoathirika.

Maombi yanapaswa kuwa wakati wa asubuhi

Mara kwa mara: Tuma kila siku mpaka idadi ya wadudu ipunguzwe chini ya kiwango cha kizingiti

Na Ngobi Philly: Quantifier na Mkufunzi - Wilaya ya Kayunga

UONGOZI WA MZUNGUKO.

- Uongozi wa mzunguko ni shughuli bora katika Mpango wa TIST.
- Na Uongozi wa Mzunguko, kila mjumbe ana nafasi ya kutumika kama kiongozi.
- Uongozi wa Mzunguko husaidia washiriki kufikia maoni na aina mpya za uongozi.
- Uongozi wa Mzunguko hutoa fursa sawa kwa wanaume na wanawake kama usawa wa kijinsia.

- Kila mjumbe ana zawadi au talanta kutoka kwa Mungu, kwa hivyo ni nafasi ya kushiriki kupitia uongozi wa mzunguko.
- Uongozi wa mzunguko husaidia washiriki kujitolea kama viongozi, bila kujitolea kwa miaka mingi.
- Uongozi wa Mzunguko huhimiza wanachama wapya ambao wanaona aibu kuhamasishwa kupitia "Kujengana," na pia kupata kujifunza kutoka kwa kila mmoja kile kinachofanya viongozi wazuri.
- Uongozi wa mzunguko huhakikisha kuwa kuna maoni na aina mpya za uongozi.
Kyorimpa Millian: Wilaya ya Katerera Cluster-Bushenyi

JAMHURI YA WAKATI WA TARAFU ZAIKI KWA NINI

Vitu vikubwa daima vinabaki kuwa nzuri, kama programu za TIST. Kweli TIST, mpango wako hautawahi kamwe, watakuwa milele. Sasa angalia kuwahimiza watu kupanda miti kwa hivyo kuipamba mazingira yetu, kuwafundisha watu jinsi ya kuboresha majiko ya kuokoa ya ndani kutoka kwa nyenzo za kawaida, kufundisha juu ya kutokomeza ukimwi. Kwa kweli wewe ni TIST mzuri, TIST ya moja kwa moja
Na Okello Joseph-Kyankende Cluster- Wilaya ya Kiryandongo
Manufaa ya ZIARA ZA KIWANDA
Miti ya asilia hutoa hewa safi ambayo inasaidia afya yetu
Inaweza kupandwa karibu na mipaka yetu ya shamba na eneo la nyumbani
Wao hufanya kama upepo huvunja karibu na nyumba zetu
Miti ya asilia hutoa uzuri na kivuli
Miti ya asilia inaweza kuwa huko kwa miaka mingi na hutumia kaboni nyingi
Miti asilia hutoa nyumba na chakula kwa ndege na wanyama
Miti mingi ya asilia hutoa wastani kwa afya yetu nzuri
Na Akatukunda Nancy- Mpungu Kambi ya Tawi- Wilaya ya Kanungu

FAIDA YA MTII YA ASILI.

Mama yetu Uganda ambaye ni lulu ya Afrika, mzuri na miti, mazingira ya kijani kibichi, miti yenye kifuniko cha taji ambayo hufanya kama kivuli katika nyumba zetu, mitaa ya jiji. Mungu alibariki nchi yetu Uganda na kuiita lulu ya Afrika.
TIST Uganda pia ni mpango mzuri wa kutetea urejesho wa utukufu wa mazingira kwa kupanda miti.
Mti ni rafiki yako, anakupa hewa unayopumua, anakupa matunda kula, anafanya mazingira kuwa mazuri, anakupa makazi, anakupa pesa, dawa.
Ni mti mzuri gani, tunakupenda kwa sababu unafuatana nasi hata wakati tumepumua pumzi yetu ya mwisho kukutana na muumbaji wetu. Rafiki yangu mpendwa upanda miti, weka miti na upende miti. Mti ni rafiki yetu bora. TIST moja kwa muda mrefu ya kutetea upandaji wa Mti.
Na Kiromba Wilber-Nyarushanje Cluster- Wilaya ya Rukungiri
