The International Small Group and Tree Planting Program (TIST)
An Environmental, Sustainable Development and Community Forestry Program.

- Taking Care of Trees – Our Responsibility, Says Giantune Aaki Best Small Group.
- Kibaranyaki Small Group: Counting on our Achievements so far.
- New Kirimaara Field Office: Taking the First Step with Confidence.
- Kithoka TIST Small Groups: Working Together to Fight HIV/Aids Peril.
- Wiyumiririe TSE: Making Good Strides.
- Umoja A Mworoga TSE: Growing Strong.
- TIST Program moves to Nyahururu
- TIST program now in Laikipia west!
- Proposed: TIST Kenya Bank Account and M-Pesa Program.

Members of Kinyaritha Field Office during one of their meetings.
Taking Care of Trees – Our Responsibility, Says Giantune Aaki Best Small Group.

We, Giantune Aaki Best Small Group, are among the hundreds of Small Groups who have joined the TIST Program.

Since joining this program, we have benefited from the trainings offered, and as a result made significant achievements in growth of our Small Group.

For instance, our members have tripled their tree planting effort. This has resulted in an almost 300% increase in number of trees in our farms.

From the trainings, and through exchanging and sharing of best practices in node trainings, we have learnt new and better ideas in nursery establishment and management, tree planting and management.

Initially, we didn’t consider that trees require care like any other crop. We used to leave them untended, and this often resulted in many of our seedlings dying early. The new best practices that we have learnt in TIST have taught us the importance of proper tending of trees from the time they are transplanted till they are mature. This includes appropriate spacing – which depends with a tree species, but should be no less than 2 meters for all species. Weeding and pruning is also part of taking care of the trees and regular inspection to check whether pests or other diseases have attacked them.

Besides tree planting, our Small Groups is involved in dairy goat keeping, fish rearing, and practicing Conservation Farming. Conservation Farming is a different farming technique that has allowed us to get larger yields from small pieces of land.

We hold our meeting every week and we do practice rotational and servant leadership. This has enabled us to instill sense of ownership to every member of our Small Group and most importantly harnessing and improving our leadership qualities as well as making our Small Group strong.

Kibaranyaki Small Group: Counting on our Achievements so far.

Kibaranyaki TIST Small Group joined TIST program in the year 2005. We are under Wendo office. We have 3 tree nurseries. We have managed to plant trees in public ground and schools. We have planted trees in Kibaranyaki Forest. We have a total of 5,573 trees of different species.

We have recruited more than 20 Small Groups in our area. All our members practice Conservation Farming. We have higher yields this season as a result of Conservation Farming. Others members of the Small Groups are now practicing Conservation Farming after witnessing high yields from our fields.

We do sensitize communities about peril of HIV/Aids through traditional folk dances and also perform the same to promote tree planting.

We are working hard in recruiting more Small Groups to join TIST program.
New Kirimaara Field Office: Taking the first step with confidence.

We are most grateful to Chugu Field Office for having mentored us. Indeed, Chugu is our ‘mother’. We are also thankful that TIST Kenya management have supported and entrusted us with an office.

We will reciprocate this by serving Small Groups in our area effectively and efficiently.

We have started with 3 trainers and 6 Quantifiers. Our service is mainly in Meru South district.

We have more than 200 Small Groups already registered so far. Our trainers are working hard to see that more groups are registered. On the other hand, our Quantifiers are working in tandem to see more groups have their trees counted.

The program has been received well by the communities in areas we serve. We are optimistic and confident that at the end of this year, we will have more than 500 Small Groups trained and registered.

TIST program has offered multiple benefits to our Small Groups. One benefit is that Small Groups receives incentives for each tree they plant and keep alive. Also, a group like Ntua Small Group, who are bee keepers, have seen higher production of honey as a result of increased availability of nectar produced by more trees they have planted since joining the program.

Gradual changes of improved climate have begun to occur as more farmers join TIST and plant more trees. Our catchments areas as well as streams, which had begun to diminish, are now rejuvenated.

Despite the fact majority of our members have small pieces of land, they have adopted ways of ensuring that they meet the requirement of a minimum 1,000 trees every year and 5,000 trees after 5 years. They have also incorporated fruit trees such as avocados, oranges, lemons, avocados, macademia which do well when intercropped with other food crops. This has enabled them to increase their production hence more income. A number of them are also practicing conservation farming.

Our trainers now request to be trained on development of energy efficient jikos. This will help them train more farmers and thus reduce strain on wood fuel hence conservation of trees for long – term benefits.

By Purity Nkatha.

Aids oh Aids
A mention of you, scare me stiff
Out of darkness, you have swept mankind
From north to south, from east to west
Aids, Oh Aids do you have mercy

Our parent, you have spared not
Our sister, brothers, you have destroyed

Children are left orphan, yet you seem undeterred
Men are left widowers, women are widows
Aids, Oh Aids do you have mercy

We must stand together, to conquer Aids,
Our hope is faithfulness
Our hope is abstain
Our hope is caring, loving orphan, widows and widowers
Aids, Oh Aids do you have mercy
Wiyumiririe TSE: Making good strides.

In an effort to spread benefits to distant areas and where TIST program has not been in existence, we have been offered an opportunity to serve Wiyumiririre and its adjacent areas through a newly established initiative within TIST program – TIST Social Entrepreneur (TSE).

Jinnaris Wagachoya leads our TSE team in this area. The other partners are Mary Wambui Wamuya and Susan Wanjira Mwariri.

We have been received well in this area. We are grateful to Ms. Wanjugu Mugo, the local Sub-Chief for her great help. Through her support we have been able mobilize, train and recruit Small Groups.

For more details, you may contact Jinnaris on mobile phone number 0724- 365431 or Ms. Wanjugu Mugo, the area Sub-chief.

Umoja A Mworoga TSE: Growing strong.

We, Umoja Mworogo A Best Small Group, are grateful to TIST program for having considered us among others to implement the newly introduced TIST Social Entrepreneurs (TSE).

In this new initiative, we are expected to satisfy certain requirements among them introducing TIST program in new areas.

We have selected and focused our activities in Imenti North and Tigania West constituencies. We have established clusters in Mutuuma, Thau, Lairang’i, Mitunduu, Mumuu and Kianjai.

The lead persons in our TSE are Jennifer Kithure, Agnes Kithinji and Geoffrey Muriuki.

For more details, you may contact Jennifer on her mobile phone number 0726- 319539.

TIST Program moves to Nyahururu

The TSE team of Nyahururu has all along been busy holding meetings with farmers and sensitizing them on TIST program. The farmers have been enthusiastic to join the program.

For the last 4 months, over 150 Small Groups have been registered. These groups have already been trained on Conservation Farming, Nursery Management, TIST program introduction and Best Practices.

Conservation farming has resonated well with the members who largely maize crop farmers. This is expected to double their yields coming season.

At the moment the TSE team with the help of small groups is establishing nodes in areas of Salama, Pesi, Uruku Pesi, Mairo inya and Raichiri Podo area.

The team leaders are Alphaxard Kimani, Susan Wanjiru, and Peter Mbuthia Mithiru. We are in a process of recruiting more trainers and quantifiers.

You may contact us via Peter – 0722-896086, Wanjiru - 0711601421 or Kimani 0722-0722-477321
TIST program now in Laikipia west

TIST program started in October 2007 on a pilot basis upon expansion from Mt. Kenya Region through the new established approach of TSE. The TSE team leader, Joshuah Irungu and the two partners: Mary Gichuru and Anthony Mungai dedicated much of their time in creating awareness in the target areas. The publicity to create awareness was done through churches, schools, chiefs’ offices and posters at strategic points. The community was sensitized through public Barazas in different focal areas; namely Mastoo, Nyakinyua, Tandare, Njorua, Kwanjebi, Mithuri, and Karaba.

After sensitization in a number of meetings with the community, 5 clusters were established upon formation and registration of Small Groups in the provided TIST SG registration form. The qualified clusters are Tandare, Njorua, Mithuri, Karaba and Kwejebi, though the demand is high and potential for more clusters is assured; so far 204 Small Groups have been registered and are currently being entered in the palm.

Towards our achievement is a number of contributing factors and among them are;
1. Imposing of the ban to have entry to forest for wood harvest.
2. Tree planting as an alternative source of income through GHG business besides all other benefits.
3. Depletion of shrubs and woodlands as results of opening virgin lands for cultivation.
4. Community sensitization on tree planting by prior programs like SARDEP and existing ones such as tree is life and SEEDS.
5. Large chunks of land unsuitable for cultivation.

Out of the 5 established clusters, 3 clusters have already identified 10 trainers and 4 quantifiers. Training on Nursery establishment, land preparation for conservation farming and general introduction of TIST program have been conducted for the 3 clusters. To many of the women who have joined the Small Groups, the driving force has been the expected training on energy saving jikos and conservation farming. Currently the team is training the identified 10 trainers and 4 quantifiers in each cluster on TIST program, nursery establishment and land preparation for conservation farming. Monthly meetings per each cluster are going on and recruitment and registration of the SG is at a high peak.

TIST Kenya Bank Account and M-Pesa Program.

TIST Kenya is in process of implementing a new system of paying the Small Group. As majority of our participants are aware, it is now easier to send money from one person to another through the use of M-Pesa. We believe majority of our members have heard of this money transfer system. However, we need to hear the view of all our participants. At the same time, we require your cooperation to make this new system a success.

The purpose of the new TIST KE Bank Account and M-Pesa Program is to provide better payment service to the Small Groups and also to reduce the costs of the payment service to the TIST Program.
The benefits to the Small Groups should be:

- Knowing how much money they have in their account at all times;
- Being able to receive cash from their account at whatever times and locations are convenient to the Group;
- Receiving interest on the fund balance that they leave in their TIST Bank Account;
- Having an auditable funds transfer system that is transparent to all;
- Being able to see within days the difference that planting more trees has after a new Quantification;
- Being able to notify the TIST Kenya Team of any mistakes.

How will this operate?

1. Each TIST Small Group will automatically have a “TIST Bank Account” from the time they are first Quantified, prove that they have signed the GhG contract, and are in good standing. Please note this TIST bank Account is not an account in a local banking institution. It means TIST will have its own ‘bank’ where it will deposit money earned by Small Groups members from the trees they plant, keep alive and are counted by our Quantifiers.

2. After the first Quantification the TIST database will calculate the money owed to a Small Group. This will include the calculation of when they started the nursery that has led to having trees planted out for over 6 months.

3. Following the calculation the database will deposit the Small Group funds into their own “TIST Bank Account” and will notify them by SMS of the initial deposit.

4. Each month following the initial deposit, the average balance of the funds in that Small Group’s TIST Bank Account will earn a simple interest rate of 7% per annum which will be deposited to their account on a monthly basis.

5. The Small Group will have the ability to find out the balance in the TIST Bank Account through a SMS message by following the ‘Balance Inquiry’ instructions provided to them.

6. The Small Group will have the ability through an SMS message to request all or a part of their balance to be paid to them through the Safaricom M-Pesa system.

7. When the database receives the SMS message (and proper security codes), it will trigger a transfer from the TIST M-Pesa Agent account to the Small Group account and will reduce the Small Group TIST Bank Account balance by the same amount.

8. M-Pesa will then provide the Small Group with an SMS notification of the deposit of the funds to their account.

9. The Small Group member who is registered as the M-Pesa member will be able to transfer funds or minutes to other phones, or to get cash from a M-Pesa agent.

As mentioned above, for this system to work effectively, all members must cooperate. We need to give and share more ideas with Small Group members during nodes meetings starting next month. We appeal for your attendance in Node Meetings so that we may get your views and also explain more deeper how it is going to work.

TIST Kenya invites Small Groups members to prepare and submit their articles for publishing in this Newsletter. Such articles should feature activities carried out by your Small Group, Achievements, Success, Challenges and opportunities.

We would like to hear from you the benefits you have achieved since joining TIST and areas that you would like us improve.

To reach us, you can contact Joshua - 0724 - 255369, Martin -0722-846501. Email address joshuahirungu@tist.org, martinweru@tist.org.

You may also contact our Field Offices Staffs in Narumoro, Lamulia, Ntugi, Kinyaritha, Chugu, Wendo and Kirimara. We will be at your service.

Thank you.

Embrace peace, save Kenya.

Naithui nitukwenania gikeno gitu na njira ya gutungata ikundi nini na wendi muingi.

Twanjite na arutani 3 na Atari 6. utungata witu urimakiria gichigo kia Meru ya muhoro.

Andu a icigo ici ni mamukirite TIST na wendi muingi. Turi na mwihoko munene ati gugikinya muthia wa mwaka nitugakorwo na makiria ma ikundi 500 ciandikithitio.

TIST iri na maouguni mithemba miingi kuri ikundi citu nini. Maouguni maya niati ikundi nini.
nicirihagwo oro muti uria wote maramenyerera. Ikundi nini ta Ntua nimonet miahchiro makiria kumana na uki uria mendagia tundu mahua nimaingihite kumana na miti iria mahandite kuhitukira mubango uyu wa TIST.

Riera niriambitie kwagira kumana na uhandi uyu wa miti. Njui iri ciambitie kuniara niciambitie guchoka kahora oro kahora.

Onakorwo andu aingi a ikundi citu mari tumigunda tunini, nimacharitie njira cia kwona ati ni makinyia makiria ma miti 1000 oro mwaka na makiria ma miti 5000 thutha wamiaka itano. No marahanda miti ya Makorobia, machungwa, ndimu orohamwe na ngandania iria yagagira muno riria yahandanirio hawe na irio ciamithemba ingi. Gwika uu niguutumite miahchiro mao mongereke na orohamwe na mihuko yao ikaimbaimba. Aingi ao nomarahuthira urimi mwega.

Arutani aitu nimaroria mathomithio igururia mariko ma gutumira ngu nini. Uu ni gugutuma mathomithie arimi aingi na konwo manyihanyihie uhuthiri wa ngu na machungirira wanangi wa miti unyihanyihe.

Amemba a tukundi tunini kuuma wabici ya Kirimaara

Gikundi kinini gia Kithoka: Kunyitanira nigetha turue na murimu wa mukingo.

Rihariri-irio ni Purity Nkatha.

Mukingo ui mukingo!
Ungigwetwo, makaga muno.
Utwarite mundu ndumaini.
Kumia rugongo nginya muhuro, irathiro nginya ithuiro.
Mukingo, ui mukingo, niuri tha?

Nginya aciari aitu, uninite othe,
Ari na ariu a maitu, oronao

Ciana itigitwo iri ciandigwa, na nduramaka niuguo.
Athuru ni andigwa, na atumia orotagwo,
Mukingo, ui mukingo, niuri tha?

No nginya twirutire, kurua na mukingo,
Twihokane
Twage kwonana kimwiri ihinda ritari ikinyu
Na twende na tutungate ciana, athuri na atumia a ndigwa.
Mukingo, ui mukingo, niuri tha?

Wiyumiririe TSE: Kuoya ikinya riega.

Hari wirutiri wa gutheremia mawega ma TIST nakuria itakoretwo iri, nituhetwo kamweke ga gutungata Wiyumiririre na matura maria mathiururuki-irie kuhitukira mutaratara wa TIST niguo TSE.

Jinnaris Wagachoya niwe utongoragia TSE gichigoini gitu. Acio angi ni Mary Wambui Wamuya na Susan Wanjira Mwariri.

Niwamukiritwo wega muno gichigoini kiu na niturachokia ngatho kuri munini wa Chibu niwe Ms. Wanjugu Mugo, niundu wa uteitho wake. Kuhitukira we nituhotete kuruta na gutomithia ikundi nyingi. Niundu wa uhoro makiria noweranirie na Jinnaris kuhitukira namba ini ya thimu 0724-365431 kana munini wa chibu Ms. Wanjugu Mugo.

Umoja A Mworoga TSE: Kugia na hinya makiria.

Ithui gikundi kinini kia Umoja Mworogo nitukenete muno niundu wa TIST niundu wa kwanjiriria mubango wa TSE
Kuhitukira mubango uyu. Nitwihoketwo gutheremia TIST maturaini meru.
Turenda gutambia mawira maitu ichigoini cia Imenti North na Tigania ya ithuoro. Nitwanjitie ikundi ichigoini cia Mutuuma, Thau, Lairang’i, Mitunduu, Mumuu na Kianjai.
Aria maratutongoria TSE itu ni Jennifer Kithure, Agnes Kithinji na Geoffrey Muriuki.
Niundu wa uhoru makiria no waranirie na Jennifer kuhitukira namba ino ya thimu 0726-319539.

Aria maratutongoria TSE itu ni Jennifer Kithure, Agnes Kithinji na Geoffrey Muriuki.
Niundu wa uhoro makiria no waranirie na Jennifer kuhitukira namba ino ya thimu 0726-319539.

TIST gutherema nginya Nyahururu

Gikundi gia TSE kiri kiri nyahururuu nigikoretwo kiruti-ire muno gikionia andu mawega ma TIST. Arimi mari na wendi muingi wa kuwingira TIST hari kahinda ka mieri 4, makiria ma ikundi 150 niciandikithitio. Ikundi ici nochithomithito iguru ria urumi mwega, umenyereri wa tuta orohamwe na maundu maingi iguru ria TIST

Arimi aingi a mbembe nimakenete ni urumi mwega na nimhokete kugia na magetha mega kimera kingi.

Kahindaini gaka, gikundi gia TSE gigiteithiririo ni ikundi nini nikirambiriria node ichigoini cia Salama, Pesi, Uruku Pesi, Mairo inya na Raichiri Podo.

Gikundi giki gitongoretio ni Alphaxard Kimani, Susan Wanjiru, na Peter Mbuthia Mithiru. Turi mumbangoini wa guthomithia arutani makiria.

No utwaririe kuhitukira Peter – 0722-896086, Wanjiru - 0711601421 kana Kimani 0722-0722-477321.

TIST gutherema nginya Laikipia ya irathiro!

Mubango wa TIST wambiri-irie October 2007 arinjira imwe ya gutherema kuma kirima gia kirinyaga kuhitukira TISE. mutongoria wa TISE niwe Joshua Iru ngu na andu eri nio: Mary Gichuru na Anthony Mungai nimeruti-ire muno kwona ati nimatheremia TIST maturaini machio. Mahuthiririre, makanitha, machukuru, Chubu orohamwe na ibanda kundu guthunda tuta.

Arimi aicigo ici nimiruriro kuhitukira Barazas na Mastoo, Nyakinyua, Tandare, Njorua, Kwanjebi, Mithuri, na Karaba.

Thutha wa kwonia andu wega wa TIST kuhitukira michemanio, ikundi ithano niciia thundurirwo niundu wa kwandikithia ikundi nini hari fomu cia TIST SG iria ciahanirwo. Ikundi ici nicio Tandare, Njorua, Mithuri, Karaba na Kwejebi, niundu wa wendi wa gukorwo na ikundi makiria, nitura ikira kinyi ati ikundi makiria niciugithundurwo na gukinyira hau turi ikundi 204 niciandikithitio na nicira ingirio thi-inie wa mutambo wa palm.

Nigetha tuhingie wendi witu nihari na maundu maria maratutongoria na nimo:
1. Kugiria utemi wamiti ithaka-ini.
2. Uhandi wa miti arjira imwe ya guthondeka mbecha kuhitukira GHG.
3. Kunina ithaka cia mahuti na ngiri nini nigetha kuhe mweke migunda ya kurimwo.
4. Kwonja andu wega wa uhandi wa miti kuhitukira mibango ta SARDEP na iria ingi cianjitie ta Muti ni uturo na SEEDS.
5. Migunda mi-ini minene iria irarimagwo. 

Hari ikundi icio 5, ithatu ciaconie niciigte na arutani 10 na Atari 4. urutani iguru ria tuta, uhaririria
wa migunda urimi mwega na ithmo iguru ria TIST cicirikitio hari ikundi ithatu. Atumia aingi aria maingireite ikundi-ini ici marendamuno mathomithio iguru ria mariko ma uhuthiri munini wa ngu na urimi mwega. Michemanio ya oro mweri na urutani na wandikithia wa ikundi njeru no urathii nambere.

Maria mendekithitio ni; Account ya bengi na M-Pesa.

TIST Kenya irimubangoini wa kwanjia njira njeru ya kuriha ikundi nini. Tauria andu aingi mo, riu ni uhuthu muno mundu kuhuthira njira ya M-Pesa gutuma mbia kuma mundu umwe nginya uria ungi. Turehoka ati andu aingi nimo njira ino njera ya M-Pesa.

Oronakuriougui, niturenda kuigua mawoni ma ando othe a TIST orokohinda-ini kau tokoria wirutiri na unyitaniri waku nigetha gukinyaniria kiroto giki gitu.

Gitumi kia Account ya bengi na M-Pesa nikuhituthi urihi na mahuthiro ma marihi hari andu aitu a TIST.

Mawega maya magukorwo mari:

- Mamenygwe mbia iria mari nacio mahinda mothe.
- Kwamukira mbecha handu orohothe na mathaa oromothe.
- Kugia na machiaro kumana na mbecha iria matiga accountini ya TIST
- Kugia na utari mwega wa mbecha urehokwo ni mundo orowothe.
- Mahotage kwona utiganu uria uriho thutha wa kuhanda miti makiria thutha wa gutara miti.
- Mahotage kumenyithia TIST Kenya ihitia oro ritothe ringonekana.

Guhoteteka uu atia?

3. Marikia gutara, mbecha cia ikundi ici ciri ikagio accountini ya TIST na amemba makamenyithio kuhitukira SMS mbia iria maikia.
4. Oro mweri kumania na marihi ma mbere, mbecha iria itirigagwo accountini nciirigiaga na machiaro ma 7% hari oro mwaka iria iria ikagio accountini oro mweri.
5. Ikundi ici cia TIST nichirihotaga kumenyina mbecha iria itigirite kuhitukira ndumiriri nguhi na njira iria mahetwo.
6. Ikundi nini no cirihotaga kuria mbecha iria itigirite kuhitukira SMS na nomarihwo kuhitukira M-Pesa.
7. Riria TIST yamukira SMS (iri na mabataro mothe) ni iritambagia uhoro kuri muigiririki wa M-Pesa na kuhitukira njira iyo ukamenya matigari ma mbecha ciaku.
8. M-Pesa ni irimenyithagia ikundi nini kuhitukira SMS mbecha iria ciaikio accountini yao.
9. Andu a ikundi nini ari mari a M-Pesa nimarihotaga guthamia mbecha nginya kuri thimu ingi kana makaruta mbecha kuhitukira wabichy utungata wa M-Pesa.

Mutongoria wa TSE Laikipia West, Joshua, agikira kirore uiguano wa uruti wa wira.
